EXPERIENCE

JANUARY 2026

Part-Time Mobile Developer (Contract) | Trixicon | Tel Aviv, Israel

Developed mobile applications using React Native and built WordPress-based solutions, integrating Amazon services for backend functionality, data handling, and scalable application support.

DECEMEBER 2025

AI Test Developer (Contract) | CoreThink AI Inc. | United States

Tested and evaluated coding model outputs for accuracy, functionality, and edge cases, identified bugs and inconsistencies, created test scenarios, and contributed to improving model performance and code reliability through structured feedback and validation.

SEPTEMBER 2025 – FEBRUARY 2026

Software Developer (Contract) | Freelance Client | Toril, Davao City, Philippines

Developed a Point-of-Sale (POS) system with integrated inventory management for a minimart, implementing sales tracking, stock monitoring, and reporting features to improve transaction efficiency and inventory accuracy.

JULY 2025

Web Developer | DSG Son's Group Inc. | Davao City, Philippines

Developed and maintained web applications using Laravel (PHP) as the primary backend framework, implemented server-side logic and database integration, and utilized Python scripts to retrieve and process data for integration with PHP-based systems.

FEBRUARY 2025 – MAY 2025

Frontend Developer (Internship) | Jairosoft Inc. | Davao City, Philippines

Built responsive web applications using Next.js and Tailwind CSS, improved application performance by 40% through state management and optimization, and participated in Agile development while contributing to code reviews and team collaboration.

DECEMBER 2024 – JANUARY 2025

Unity VR Game Developer (Contract) | Freelance Client | Davao City, Philippines

Developed and prototyped virtual reality (VR) game concepts using Unity, focusing on core gameplay mechanics, interaction design, and rapid iteration to validate features and improve user experience.

SEPTEMBER 2024 - NOVEMBER 2024

Backend Developer (Contract) | HCDC SSG Executive Department | Davao City, Philippines

Handled backend development and built a tabulation system for the organizational website, integrated Supabase and PostgreSQL for database management, developed dynamic and responsive user interfaces, and utilized Next.js, Tailwind CSS, Supabase, PostgreSQL, Framer Motion, Vercel, and Git for full-stack development and deployment.
