

Frontend & Mobile Developer (React / React Native)

ART III DELA CRUZ

Davao City, Davao Del Sur, Mindanao, Philippines (+63) 993-957-3856 artace011503@gmail.com

EXPERIENCE

Part-Time Mobile Developer (Contract) | Trixicon | Tel Aviv, Israel

JANUARY 2026

Developed mobile applications using React Native and built WordPress-based solutions, integrating Amazon services for backend functionality and scalable application support.

AI Test Developer (Contract) | CoreThink AI Inc. | United States

DECEMBER 2025

Evaluated AI-generated code outputs for correctness, edge cases, and functionality. Identified bugs and inconsistencies, created test scenarios, and provided structured feedback to improve model performance and reliability.

Software Developer (Contract) | Freelance Client | Toril, Davao City, Philippines

SEPTEMBER 2025 – FEBRUARY 2026

Developed a Point-of-Sale (POS) system with integrated inventory management for a minimart, implementing sales tracking, stock monitoring, and reporting features to improve transaction efficiency and inventory accuracy. Built mobile application features using React Native for cross-platform functionality.

Web Developer | DSG Son's Group Inc. | Davao City, Philippines

JULY 2025 - PRESENT

Developed and maintained web applications using Laravel (PHP) for backend systems, implementing server-side logic and database integration. Built mobile application features using React Native and supported system functionality through backend integration and API-based workflows.

Frontend Developer (Internship) | Jairosoft Inc. | Davao City, Philippines

FEBRUARY 2025 – MAY 2025

Built responsive web applications using Next.js and Tailwind CSS, improved application performance by 40% through state management and optimization, and participated in Agile development while contributing to code reviews and team collaboration.

Unity VR Game Developer (Contract) | Freelance Client | Davao City, Philippines

DECEMBER 2024 – JANUARY 2025

Developed and prototyped virtual reality (VR) game concepts using Unity, focusing on core gameplay mechanics, interaction design, and rapid iteration to validate features and improve user experience.

Backend Developer (Contract) | HCDC SSG Executive Department | Davao City, Philippines

SEPTEMBER 2024 - NOVEMBER 2024

Handled backend development for a tabulation system using Supabase and PostgreSQL. Built full-stack features using Next.js and deployed applications using Vercel.
